c. Penjelasan dari code dan output (korelasi)

Kode HTML dan CSS ini membentuk sebuah website portofolio personal yang responsif menggunakan framework Bootstrap 5.3.2. Struktur HTML dimulai dengan deklarasi HTML5 dan konfigurasi meta tag untuk viewport, mengintegrasikan Bootstrap CSS, Google Fonts (Poppins dan Open Sans), serta Lucide Icons untuk ikon vektor. Halaman terdiri dari navbar sticky-top dengan menu responsif, diikuti oleh section Hero (perkenalan diri), About (profil dan foto), Education (riwayat dengan sistem tab Bootstrap), Projects (galeri dalam layout card grid), Contact (formulir dan informasi), serta footer dengan tautan media sosial dan tombol "Back to Top". File CSS melengkapi tampilan dengan variabel warna konsisten pada :root, animasi keyframes (fadeIn, float, pulse-bg), efek glass morphism pada navbar, gradient background bergerak pada hero section, styling tombol dengan shadow dan transformasi hover, timeline menggunakan pseudo-element, serta media query untuk responsivitas perangkat mobile. Keseluruhan kode menghasilkan portofolio modern dengan interaksi smooth scroll, animasi halus, dan tampilan yang adaptif di berbagai ukuran layar.
